[COMMUNICATED.

Analysis of Brandy. As the question of Brandy for Medicinal narposes, seems to be agitating the commupurposes, pit to a considerable degree; and as it would probably interest the public to know someprocess, various brands of this de'e stable article of consamption, I have been induced by a sense of soajysis, from time to time, of some qualities of the article, and herewith present the reof the substitutive and qualitative, for Having procured four specimens, at the fillwing prices: No. 1 at \$1 per gallon; No. 2 at \$3 per gallon; No. 3 at \$5 per gallon; No. 4st Sper gallon, I proceeded as below: Analysis of No 1, and Remarks: 

The Whiskey used in the manufacture of the compound, was found, after separation,

Water—the balance.
This No 1 article was found difficult to

set on fire, owing, probably, to the great amount of Aqua Hydrantis, or Riveris, preeent in it.

Analysis No. 2: Fisel Oil do Undiscovered Matter do Water......40.6

Analysis of No. 3, and Remarks: This article was found to be much purer the price in this case governing the quality. the grape skins )-not appreciable. Watef......60

The analyzer thinks that this quality, at Spergallon, would be much saler to use han the two former, as it contains more watet, and none of the vitrol and undiscovered matter, and but a trace of grain or fusel oil. No 4 ranked so much above the others in ence, and in quality, that it was thought bat at elaborate analysis would be unnecessety, and that the public mind would be note enlightened, and certainly more intersted, by an appeal to a higher authority, which can be gotten for the sum of \$1 25, at any of the bookstores.) and which shows the empounds of good and pure Brandy to be 

to the essential oil of the grape, from whence distilled. The components of good Whiskey are:

The distinct and marked flavor of this Liquor is due to the grain or fusel oil genc-

mted in the act of fermentation. The analyzer did not go beyond the above intestigation, for the purpose of ascertaining the ultimate constituents of the component parts of the above substances-their quality and quantity baving been already determined and have not changed for a very long period. To these who are curious about matters pertaining to organic chemistry, the writer would refer them to Fowne's Practical Chemistry, and to the works of Liebig, Lavoisier, and other master mands of the science. GRAPE.

COMMUNICATED. Repairing King Street would be a very god thing-if we had not to go in debt to it. There is debt enough, and taxes enough, now, to last us for twenty-five years, sithout adding to the one, or increasing the other. Let King street, alone, for the present-and nurse the Sinking Fund! A TAX PAYER.

Alexandria Market, September 7. The offerings on 'Change were light, and the market quiet-very tew sales reported. Flour s seminally unchanged. MEETING OF THE STOCKHOLDERS OF THE ALdays ago we mentioned the fact that a report EXANDRIA, LUD UN AND HAMPSHIRE RAILto the effect that the above well known insti- R AD Company .- The sixth annual meeting tersburg, and in consequence of the extensive Railroad Company, was held vesterday in Jamieson, esq., in the Chair, and Reuben Johnston, Secretary.

The report of the Board for the past year, with the statements of the Treasurer, and the report of the Consulting Engineer, and have before us a letter, from J. J. Blackwood, that of the Examining Committee, were presented, read, and approved.

> PRESIDENT'S REPORT. The Board of Directors of the Alexandria, Loudoun an Hampshire Railroad Company, respectfully submit to the Stockholders

their Sixth Annual Report.
Referring to the rejoin of C. B. Manning, esq., the Consulting Engineer, it will be seen that the Gradiation and Masonry of forty miles of the Road is nearly completed, and will be ready for the cross-ties and rails as soon as they can be laid down. The timber for the Bridging upon twenty-five miles of the line is contracted for, and will be delivered this fall. A contract has been made with Mr T. S. Jamieson for a portion of the freight cars, as well as for the chairs for tweive miles of the track. The 1,000 tons of iron are on the spot, and will be laid down during the fall, and arrangements are in progress for a further supply. The work on section A (from the depot at Alexandria to the cro-sing of the Washington Turopike) has been delayed longer than was desired by the Board, in con-equence of its expensiveness, and of the heavy land damages, requiring each means which could be more judiciously expended elsewhere. Arrangements are now made, however, to proceed, and the contractor, Mr. James Roach, is again at

work at this section. The Board, under the order passed at the general meeting of the Stockholders, on the 221 day of July, have effected an arrangement with the County Court of Clarke county, for the payment of their subscription of \$100,000 to the stock of this Company. The action of this C unty we hope will induce the County of Ludoun to make a similar subscription of \$100,000 at the proper time. The loss of the wheat crop in Loudoun the present season, makes us unwilling to press the matter at the present moment, but it will

he done soon. The Corporation of Leesburg have under consideration a subscription to our stock, and we have reason to hope that their action will be favorable. The Board trusts that the brevity of this report will be excused --There are other surjects of importance to the welfare of this work which are under serious consideration, but which are not yes in a cadition to be here mentioned.

The Treasurer's report is herewith sutmitted, and will show the state of the Com-Schr. Molunkus. Mitchell, for this port, sail- pany's affairs up to the 1st of September annexed, also, is a list of the employees of

Schr. Araminta, Howland, from this port, the Company. All of which is submitted by order of the Board. LEWIS McKENZIE. President.

Alexandria, September 7, 1858. ENGINEER'S OFFICE, A L & H. R R.Co., ) Alexandria, Sept. 6 h. 1858.

Lewis McKenzie, esq., President: Sik: In response to your call, I have recently devoted several days to a personal in-Vestings, and every variety of HOUSE. spection of that portion of your road which KEEPING GOODS,-and as they intend to keep is now, and has been for the past three years,

Taking a general view of the present con-FOR LADIES .- Rich Cashmeres and De Laines; dition of the work lying between Alexandria Rich Robes A'Lez; Persian Robe a Quille; Baye- and Clark's Gap, it may be said that the Graduation and Masonry, except at a few insu-

These exceptional points consist of the masonry and a part of the graduation of section A, at Alexandria; of a portion of the deep cut at the summit of Dranesville Black, Steel-mixed, and fancy Cassimeres, Vest- Ridge; some two handred lineal feet of the rick cut upon Section No. 24; about oneeighth of the masonry of Broad Run bridge; the enbankment of Section No. 29; a part of the masonry and a considerable amount of the embankment of Grose Creek; the graduation of Section N . 37. (a very light piece Blankets; white Cambric; Check Muslin; Huck- of work ) and a small cortion of the through meres, for boys' wear; English and American may be noted the necessary repairs of certain tained damage in the past two years from tons; Shirting Stripes; 3.4. 7 8. 4-4 Plaid Linseys: the floods of Four Mile Ran and Tuscarora

But the completion of the work at all the tion and emtankment, could be readily accomplished by the 1st of January next, if necessary; though, no doubt, it will be au-Guide for September, price 25c.

Amusements for the little Folks—more of the Paper Doll Family, "Lucy," "Frank," and other finishing work of like description, to such time as your Company may be pre-pared to go on vigorously with the bridge

and track superstructures. The condition of all parts of the road-bed, in both exeavation and embankment, even DECEIVED THIS DAY, AT GEO. SIG. where the graduation has been completed for R GERS Book and Periodical Store, 75 Prince two and a balf years, is excellent, and gives usmis takable promise of general permanency, and freedom from expensive regains after the

road shall have been put in operation. Preparations for building the bridge soper structures are now in trogress, and a suffielent quantity of timber has been contracted for to complete all of this aird of work required upon the first twenty five miles of the road.

The iron rails which have been already do

In view of an early commencement of the operations of track-laying, steps are already takes to deliver a portion of the stone ballastbest quality for family use. Just received and ing forthwith, and the remainder will be pro-

Family Grocer. gresses. Such of the materials for the track as have SUGAR CURED and PLAIN HAMS; also been delivered, are of excellent quality, especially the iron, which is of the pattern combeen delivered, are of excellent quality, espemonly called "T," and weighs fity-two pounds per lineal yard.

Altogether, the work of construction has arrived at that stage of progress where no obstacles of a physical nature are likely to prevent the completion of this portion of your exandria to Clark's Gap, by the lat of July, bones were broken.

accomplish this end. I am, sir, respectfully, your obedient ser-aut, CHAS. P. MANNING, Consulting Lagineer.

REPORT OF THE EXAMINING COMMITTEE. In consequence of the absonce of James . Smith, one of the Examining Committee. Edward S. Hough, a Stockholder, kindly consented to act in his place.

The Committee have given a careful scrutiny to the books and accounts of the Company, and report that estisfactory vouchers have been presented for the expendituresthe books have been neatly and accurately kept, and the statements of the Treasurer for the expenditures for the past year, and the general account from the commencement to the 31st of August, will show the Stock-

to make an examination of the line of the small portion of this cargo is for sale, those in Road, as was done last year, but they are want, at present prices, had better apply We gratified by learning from the report of the have in yard Cumberland Lump, Run of Mine, Consulting Engineer, that the work has progressed satisfactorily, though not so rapidly stant supply.

WISE & CO.,
